WHY LIFE'S TOO SHORT?

In 1853 Charles Hubert de Castella immigrated to Australia from the Neuchâtel in Switzerland at the invitation of Joseph La Trobe, the first lieutenant-governor of Victoria. Joining his brother Paul in the Yarra Valley, they expanded Yering Station and built St Hubert's, running cattle and establishing Victoria's first commercial vineyard with vines imported from Château Lafite in France. They completed their operations with a distillery, housing Victoria's primary wine processing plant, as well as a wine store in Collins St.

Hubert, as he was known, was not only passionate about his beloved new country, but he fast became an exceptional winemaker, winning many international awards - including the German Emperor's Grand Prize for the Best Australian Wine Exhibitor in the Great Melbourne Exhibition in 1880, and a Grand Prix Award at the 1889 Paris Exposition - both quite phenomenal achievements for Australian wine.

In his pursuit to prove that 'new world' wines were just as good (if not better) than French wines, he read (and wrote) widely on the subject of winemaking. Developing his skills, he shared his knowledge with other winemakers throughout Victoria, developing a strong wine community. In the evenings, after a hard day's toil on the land, he would relish a glass of his finest, some good food and, most importantly, exceptional company, languishing over long conversations, laughter, friendship, and the odd cigar.

One hundred seventeen years later, Hubert's great-granddaughter, Sigrid de Castella, met ex-biochemist, Antony Anderson. Uniting their passions for wine and science, together they journeyed the world, exploring their love affair with wine and gaining an expansive wine cellar.

Their shared love of hosting gastronomic degustation wine dinners for friends soon saw Antony's study with London's coveted Wine & Spirit Education Trust (WSET3, WSET4 pending) while Sigrid focussed on her love of artisan food and the 'slow food' movement. With a passion for wines that will improve with age, Sigrid and Antony ended up with more wine than they could drink, slowly aging in climate-controlled storage. As a solution Antony suggested that they find a way to share their back vintages with others who might enjoy the experience, and Life's Too Short™ back-vintage wine bar was born.

Life's Too Short pays homage to Hubert, Paul, and all the pioneering winemakers who paved the way for us to drink the fantastic wines we enjoy today. We remember them (and those who have come since) in the stories behind each region, vineyard, and bottle - stories that add to the richness of our experience. It is in the same tradition that we invite you to join us at the end of your day to relish in a glass of our finest, partake in delicious artisan food, and languish over long conversations, laughter, friendship, and perhaps even the odd cigar.
